

"I learned that my mom is like my best friend, and it doesn't have to be awkward to talk to her. She wants to have a close relationship just as much as I do, and we both have to work together to make it happen." - Senior Girl

"The conference was wonderful! I can't wait until next year." - Mom

"This was a great conference...I felt right at home." - College Rep

"I have taken our teens to various conferences and each one has been a blessing but none has had so great a response from both parents and teens as this conference at Mikado."

- Youth Pastor

"I love the fact that our parents are just as involved and challenged as our teens are during the conference."

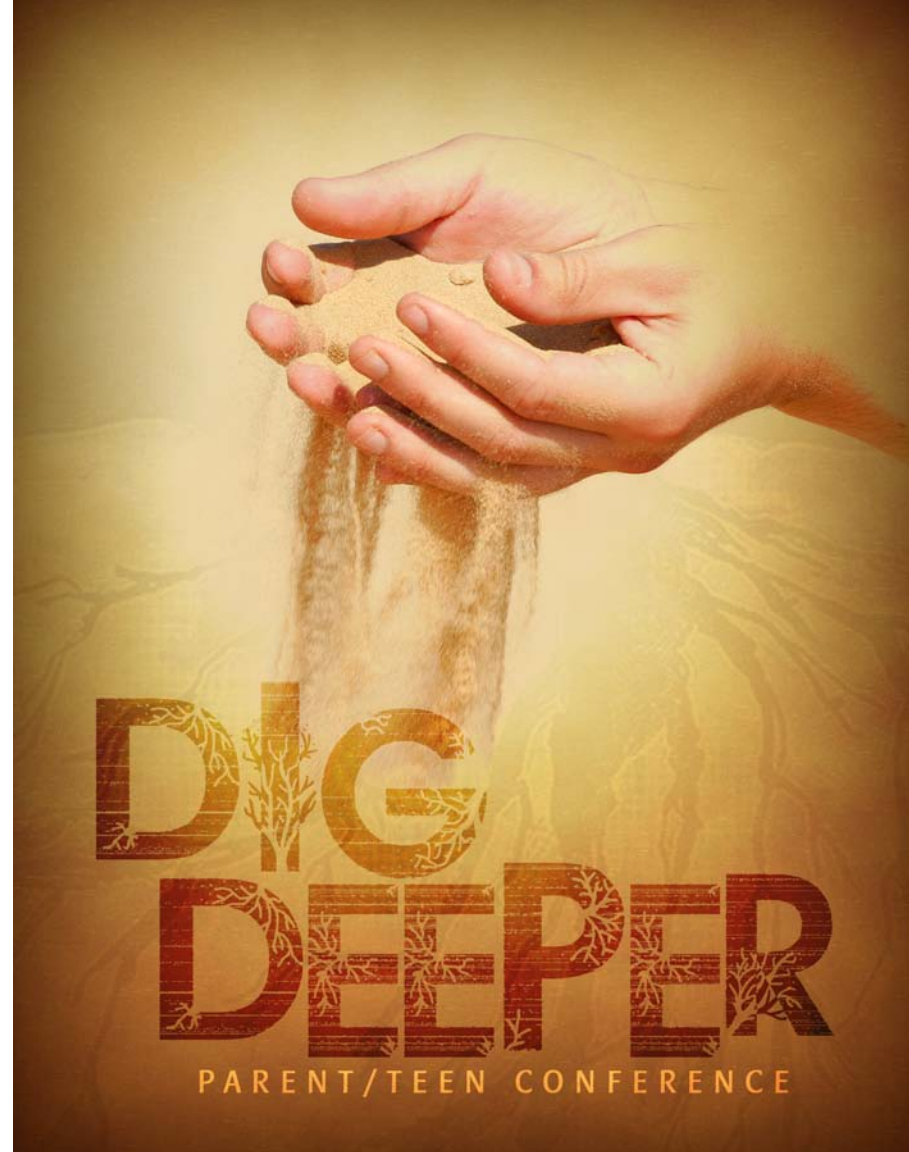

- Youth Pastor
